Hello,

Your Honor! I am not sure if everything is filled out 100% Correct. I tried to state everything clearly but wasn't sure if my train of thought was easy to follow. So at the end of The Body of Suit I put a page with the facts & brief Statement of the Case for your Convenience & also so the other side knows exactly what I mean as well. PG 9 of Suit

I put an affidavit in there to go more in depth with the situation pertaining to my Level 4 denial/demotion & removal from classes because I got a book called "Writing to Win" & just started reading it & it said Judges like to feel like they are there pretty much & since I'd already wrote the Complaint I thought an affidavit would be good. I was also inspired by Chief Justice Roberts dissent from a denial of review in *Pennsylvania v. Dunlap*, 555 U.S. 2008 that I also read in <sup>the</sup> book. I really enjoyed his Legal Nbir style.

As I said in my motion for Appointment of Counsel, I do not have access to same books or any books on Law & The law library here is a Computer programme that I don't understand well. Because it doesn't explain what is what, like Fed. d. Ct. 500-645 I have no clue or what most of the stuff is. When I do legal research or look for Court rules I want books big thick ones with titles, so I know which ones Court rules, which ones cases, which ones Federal Laws.

So I apologize again for my unlayware like writing/complaint & If I am not supposed to write you. But personally I do not believe the legal process should be a personal battleground between Litigants or Judges & Litigants. We're to argue <sup>the</sup> facts & you decide, so it's not personal & I believe writing opposing Attny & you should be allowed if it's not.
